OFFICE OF PETITIONS

PETITION UNDER 37 CFR §1.47 IN SUPPORT OF ACCEPTING A DECLARATION
WHEN AN INVENTOR REFUSES TO SIGN

Commissioner for Patents

Office of Petitions

Washington, D.C. 20231

Sir:

This petition is being filed in response to an inventor's refusal to join in an application for a patent. Applicants respectfully submit the following:

1. Copy of Declaration of Ms. Zorina Ben-Zvi under 35 CFR 1.47(a) in Support of Accepting a Declaration when an Inventor Refuses to Sign and Exhibits.
2. Copy of Declaration of Mr. Udi Volk under 35 CFR 1.47(a) in Support of Accepting a Declaration when an Inventor Refuses to Sign and Exhibits.
3. Fee as set forth under 37 CFR §1.17(i).

Applicants respectfully state that a *bona fide* and diligent attempt was made to obtain Mr. Schmuel Melamed's signature and that Mr. Melamed refused to execute the declaration of inventorship. The enclosed declaration for this application bears Mr. Melamed's name and has been executed by the other co-inventors.

The last known address of Mr. Melamed is Dror St. 7, Hod Hasharon, Israel.

NYA 355385.1

As detailed in the attached Declarations of Ms. Zorina Ben-Zvi and Mr. Udi Volk, Mr. Melamed is a former employee of Appstream. While employed at Appstream, Mr. Melamed contributed to the invention claimed in the parent case to the present application and executed a declaration and power of attorney in that case. A copy of this executed declaration is attached as an exhibit to the Declaration of Mr. Udi Volk. Aspects of the present invention were developed after Mr. Melamed's departure from Appstream. Because subject matter from the parent application to which Mr. Melamed contributed appears in at least one claim in the present application, Mr. Melamed has been named as a co-inventor.

The present application has not been published, has been kept confidential, and discloses and claims subject matter developed after Mr. Melamed's departure from Appstream. Because Mr. Melamed is no longer employed by Appstream, he was offered a copy of the present application to review preparatory to execution of the Declaration on the condition that he execute a standard non-disclosure agreement (NDA). After repeated discussions with Mr. Melamed regarding the applications and the need to execute the Declaration of Inventorship, Mr. Melamed indicated that he would not sign the NDA or execute the declaration for this application.

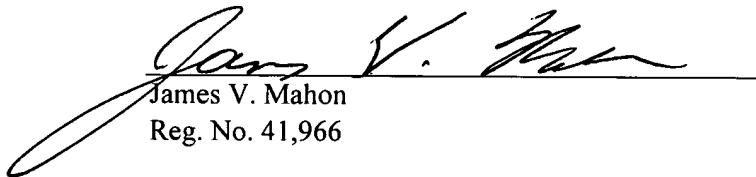

Applicants respectfully request the grant of this Petition.

The Commissioner is hereby authorized to charge the petition fee of \$130.00 and any additional fee, or credit any overpayment to Deposit Account No. 50-0521. A duplicate copy of this transmittal is enclosed.

Respectfully submitted,

SIR:

OFFICE OF PETITIONS

I, James V. Mahon, hereby declare as follows:

1. I am a Patent Attorney with the law firm of Clifford Chance Rogers & Wells LLP. I have been preparing patent applications for the past 5 years. It is normal procedure for me to take the following steps when filing an application.

- a. Review all transmittal papers in connection with the application;
- b. Review all copies made of the application for filing;
- c. Review the Certificate of Mailing by Express Mail;
- d. Review the postcard indicating all documents enclosed; and
- e. Review the file and client copies of all papers.

2. I reviewed the contents of the package before mailing with regard to the above Utility Patent Application which consisted of the Specification (26 pages), Abstract (1 page), Claims (7 pages), Drawings – informal (8 sheets), Information Disclosure Statement – 3 references on December 29, 2000.

3. In the course of reviewing the application for filing, I routinely make use of a check-list identifying all papers (including specification and drawings) to be filed with the application. A copy of this check list, completed immediately prior to the mailing of the application, was present in our patent prosecution records and bears my initials, indicating that I reviewed the application and confirmed that the drawings were present upon mailing of the application. A copy of this check list is attached.

The foregoing is true to the best of my belief and knowledge.

**DECLARATION OF MS. ZORINA BEN-ZVI UNDER 37 CFR 1.47(a) IN SUPPORT OF
ACCEPTING A DECLARATION WHEN AN INVENTOR REFUSES TO SIGN**

Sir:

1. My name is Zorina Ben-Zvi. I am the Finance Manager at Appstream LLC and an associate of Mr. Udi Volk.
2. I have had numerous telephone conversations with Mr. Shmuel Melamed over the past several months regarding obtaining his signature on Declarations required in connection with various U.S. patent applications.
3. On March 27, 2001, I sent a package to Mr. Melamed containing various documents including copies of Declarations for the following applications:

Method And Apparatus For Determining Order Of Streaming Modules
Filed: 12/22/2000 Serial No: 09/745,646

Filed: 12/29/2000 Serial No: 09/751,190
Attorney Docket No. 6032/23

A copy of the messenger certificate indicating safe delivery of this package is attached as **Exhibit A**.

4. After calling Mr. Melamed to inquire about the status of the documents sent by messenger, Mr. Melamed indicated that he had lost the documents. On April 29, 2001, I sent an e-mail to Mr. Melamed having a number of attached documents, including electronic copies of the documents listed above, hard copies of which were sent in the March 27, 2001 package. A printout of the e-mail is attached as **Exhibit B**.
5. On May 3, 2001, I sent an e-mail to Mr. Melamed having an attached document prepared by our U.S. patent counsel which discussed the various papers requiring his signature. A copy of this e-mail and the attached document is attached as **Exhibit C**.
6. One issue which I discussed with Mr. Melamed was the confidential nature of the applications. Because the applications contain information which is not publicly available and Mr. Melamed is no longer an employee of Appstream, copies of the applications were offered to him for review on the condition that he execute a non-disclosure agreement.
7. On May 9, 2001, I faxed a non-disclosure agreement addressing the patent applications at issue to Mr. Melamed. A copy of the faxed document with the fax receipt indicating proper transmission of the document is attached as **Exhibit D**.
8. Also on May 9, 2001, I had a conversation with Mr. Melamed regarding execution of a non-disclosure agreement. No agreement was reached.
9. During a subsequent telephone conversation, Mr. Melamed indicated that neither he nor his attorney would execute the non-disclosure agreement and that, consequently, he would not review the patent applications or execute the Declarations.
10. I have attempted to contact Mr. Melamed by telephone several times during the past two weeks but he has not answered any of my calls.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

OFFICE OF PETITIONS

Dear Mr. Melamed:

Enclosed please find a number of documents to be executed by you in connection with various Appstream patent matters.

As we have discussed, Appstream has recently filed several patent applications on inventions which are based, in part, on the original Streaming Modules patent application to which you contributed. In accordance with U.S. patent law, you have been named as a co-inventor on these new cases as well and thus must execute the various documents related to these cases. Enclosed is a copy of the application and a Combined Declaration and Power of Attorney for each of the applications listed below:

The Declarations affirm that you have contributed to the claimed invention in the identified applications (via the earlier related Streaming Module invention) and gives Clifford Chance Rogers & Wells, Appstream's U.S. patent counsel, authority to prosecute the applications before the U.S. Patent Office. Please review the applications and Declarations and, provided everything is in order, sign and date each Declaration where indicated. Note that the applications are confidential and should not be disclosed to a third-party without prior approval from Appstream and the execution of a suitable non-disclosure agreement.

Also enclosed for your signature is an Assignment of rights in these inventions to AppStream, Inc. This assignment memorializes Appstream's rights to the inventions as specified under Israeli law and as noted in your termination agreement. This document should also be signed and dated where indicated.

Finally, enclosed is a Revocation of Power of Attorney and Appointment of New Power of Attorney for several U.S. patent applications as well as several Power of Attorney forms which must be executed in connection with international applications which we have filed based upon pending Appstream patent applications. These forms authorize Clifford Chance Rogers & Wells to prosecute the applications on behalf of Appstream and to gain access to the official Patent Office file, if needed. 17. All notices or reports permitted or required under this Agreement shall be in writing and shall be delivered by personal delivery, electronic mail, facsimile transmission or by certified or registered mail, return receipt requested, and shall be deemed given upon personal delivery, five (5) days after deposit in the mail, or upon acknowledgment of receipt of electronic transmission. A copy of the executed Declaration bearing Mr. Melamed's signature is attached as **Exhibit A**.
4. Subsequent to his work on the Streaming Modules invention, Mr. Melamed ended his employment at Appstream.
5. After Mr. Melamed's departure, employees remaining at Appstream continued work on the "Streaming Modules" concept. This work resulted in the development of a number of new inventions. U.S. patent applications have been filed for these inventions.
6. The new applications claim priority from the original Streaming Modules patent application. As explained to me by Appstream's U.S. patent counsel, at least one claim in each of these new applications includes subject matter from the original Streaming Modules patent application to which Mr. Melamed had contributed. As a result, Mr. Melamed was identified as a co-inventor on the new applications and his name appears in the Declarations to be signed by the inventors.
7. The new applications which were filed are:

OFFICE OF PETITIONS

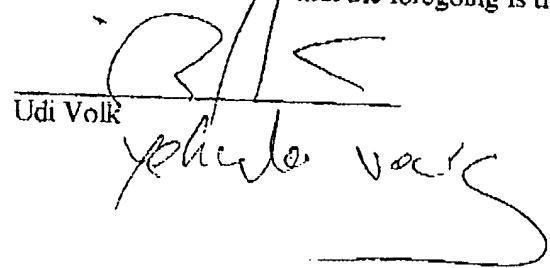

8. I have made numerous attempts over the past several months to obtain Mr. Melamed's signature on the Declarations for these patent applications and have discussed the matter with him on many occasions by telephone.
9. Mr. Melamed has refused to review the patent applications and execute the Declarations.
10. Ms. Zorina Ben-Zvi, Appstream LLC's finance manager, forwarded copies of the Declarations to Mr. Melamed by messenger on March 27, 2001 and later by e-mail on April 29, 2001.
11. On May 3, 2001, I had a conference with Mr. Melamed to discuss why he was named as a co-inventor on the new patent applications even though he was no longer an employee of the company. Following that conversation, Ms. Ben-Zvi forwarded to Mr. Melamed by e-mail a cover letter prepared with the assistance of our U.S. patent counsel. The letter indicated that his signature was required because of the relationship between the new applications and the original Streaming Modules patent application to which he contributed. This cover letter was prepared in anticipation of providing copies of the various patent applications to Mr. Melamed for review.
12. One issue which was discussed with Mr. Melamed was the confidential nature of the applications. The patent applications at issue have not been published and contain disclosure of technical features that are proprietary to Appstream and which were developed after Mr. Melamed's departure from Appstream. Because Mr. Melamed is no longer an employee of Appstream, copies of the applications were offered to him for review on the condition that he execute Appstream's standard non-disclosure agreement.
13. I discussed the confidential nature of the applications with Mr. Melamed and Ms. Ben-Zvi sent copies of a non-disclosure agreement to him for review and execution.
14. Mr. Melamed indicated that he would not execute any documents without approval from his attorney.

15. Subsequently, I was informed by Mrs. Zorina Ben-Zvi that neither Mr. Melamed nor his attorney would execute the non-disclosure agreement and that, consequently, he would not review the patent applications or execute the Declarations.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
